Dear Spin Green,

I would like to sincerely thank you for supporting the First Annual Fannie Bowl Fundraiser and Advocacy Event.

On August 2, 2013 Urban Strategies, Inc. - Fannie Barnes Residence hosted over two hundred youth, community members, homeless families, and nonprofit leaders at Chelsea Piers during a fun filled night of advocacy and support in the fight against homelessness!

With your help we were able to raise funds to assist in the continued support of homeless and low-income families within our community. This year, Fannie Barnes is committed to enhancing the programming we provide for these populations including creating on site soft skills training and employment assistance opportunities for homeless adults, enhancing literacy and social skills development, and creating additional extracurricular activities and programming for our homeless and community youth.

Your commitment has assisted in making these goals attainable. We hope you enjoy this small token of our appreciation and we look forward to sharing our future progress and successes. See you next year during the Second Annual Fannie Bowl!

~Thank You For Building With Us~

Sincerely,

Paul Miller  
Director
